Local News.

THE GREAT EVENT!

Grand Acquisition to Carson: :

The most gratifying assurance that we could have of the faith which business men have in the future stability and prosperity of our town! The construction of an Immense Industrial Edifice on the point of commencement! This vast railroad building is to cover a space of 432 feet long by 180 feet wide!!!! Under one roof are to be brought together five distinct and elaborately furnished departments, to wit: a Round House, Repair Shop, Machine Shop, Car Manufacturing, and Foundry!!!! The building is to be situated north of the new Freight Depot, and is to run east and west. Prepared stone from the State Prison is already being hauled to the site. To-morrow the ground will be surveyed, and work begun immediately afterwards. The benefit that will accrue to our people while this vast institution is building and after its permanent establishment; the amount of business and money that it will bring to our community can hardly be estimated with justice now, while the prospect of so much improvement comes for the first time before our vision in a tangible form. The brief but comprehensive words of Col. Abe Curry, the shrewd and driving contractor of the work, serve to put the whole story in a nutshell: "It's going to be a big thing, sir."

SAINT ANDREW'S SOCIETY.—A meeting of this Society is advertised in our columns of this morning to take place next Saturday evening. Let all members attend, as the meeting is to be one of very great importance.

GRAND AND GLORIOUS SKATING CARNIVAL TO-NIGHT!—Do not forget the pains pains that Moore & Parker have taken to give you a royal treat for the small sum of four bits. Skating and dancing!

School Appointments.

The trustees held a meeting night before last, and appointed the following lady teachers; Miss Sue. H. Adams, Miss Mary Torryson, and Miss Shear. Mr. Howe, the principal, has had long experience and has enjoyed the finest advantages for acquiring skill and proficiency in the profession of teaching. He taught the high school in Sacramento, until to the universal regret of the people of that city, the climate disagreeing with his health, he took sick, had to give up work and retire to the country.

Miss Adams comes loaded down with the finest recommendations and with certificates of the highest order.

Miss Shear also comes armed with certificates of indisputable worth. She has elicited much praise for the way in which she has taken hold of and overcome difficulty. In teaching by night as well as by day under disadvantages which few of the lords hereabout would have the grit to contend with, she has displayed an energy and will that are peculiar. We hope she may be able to continue her evening school, for the way that some of our larger Carson boys have been growing in knowledge under her tuition, they say, is wonderful.

Miss Mary Torryson's capacity as a teacher has been tested and we all know she cannot be excelled. She possesses that marvelous power in teaching called tact. We were allowed to examine a specimen of her penmanship—her own application to be re-employed—and we testify that it is fine and bespeaks culture.

These ladies are employed at one hundred dollars per month each. They will have their respective departments assigned to them by the principal. The Trustees moreover want it distinctly understood that they make contract with the appointees for no longer time than they continue to give satisfaction. School will open next Monday, at least the two upper departments.

VIRGINIA AND TRUCKEE RAILROAD.—Reports of the progress made on the American Flat Tunnel (says the Enterprise of yesterday) are not as favorable as heretofore. About two-thirds of it has been cleared, but the remainder is badly caved and will probably not be cleared before the 25th inst. But two sets of timbers have been placed in the south end. Stables have been erected at the tunnel for horses, eight of which (four to a car) are employed in snaking ore and freight-cars around the horn. The road has been laid off into five divisions. The locomotive Washoe runs between this city and Gold Hill; the Storey and Comstock between Gold Hill and the tunnel; the Ormsby between the tunnel and the Silver Clay switch; the Nevada, Carson and Virginia between Carson and Reno. This will be the programme until the tunnel is again open.

INDIANS ON THE WAR-PATH.—We learn from Mr. Jones, of Empire, that, taking advantage of the sheltering noise of last night's zephyrs, some Wadsworth Indians, and others who may not be Wadsworth Indians, invaded the cobbler shop of an Israelite in that quiet town and purloined therefrom two pair of custom-made boots. But the course of burglary did not stop here. Judge Morris' shop also fell a prey to the desolating invasion of the light-fingered gentry. Red-top boots and crimson shirts and socks were missed by the magistrate the morning afterward, to the appalling amount of forty dollars! The sufferers may have our sympathy, if they will.

MAMMOTH CLOTHING STORE.—We visited this first class establishment yesterday and found the industrious proprietor, Joe Rosenstock, whom everybody knows or ought to know, busily at work unpacking and arranging for exhibition the largest stock of clothing and other things in his line that he has ever yet had on hand. His stock of overcoats is especially large and attractive; but where every article is excellent it is hard to make exceptions. Shoes, boots, hats, caps and things fancy without end! Step in and remember that it is always cheaper to buy the best goods. Seeing costs nothing!

ILL WIND THAT BLOWS NOBODY GOOD.—To a man not imbued with the spirit of hunting, it seems next to incredible how such a tempest as we had last night could make anybody glad. Yet such storms are the delight of our sportsmen in the valley, for they drive out the teal, mallards, spoonbills, brants and 'honkers' from their hiding places in the mountains to seek more comfortable feeding ground, along the Carson and in the sloughs of Washoe lake. Frank McCullough, miles Wing and King have laid work aside and have gone to the latter hunting ground to catch the manna from the clouds. We expect to hear of much good shooting and little bad luck.

BOIS D'ARC.—George Gibson has relieved his mind of a grievous burden, in the way of five dollars daily expense, by sending Bois d'Arc off to the rancho. This famous rooper has gotten over the lunacy caused by splitting his hoof during the last races. The hoof, however, so says George, will not be entirely whole and sound again for two or three months—possibly six.

COAL.—Yesterday morning there were six car-loads of coal standing on the Elliot blue switch. They were from Ogden and were awaiting transportation to Virginia.

District Court.

Judge Harris presiding. In the case of W. H. Pierce, change of venue was refused. Case of James Madegan vs. M. Hogan continued till to-day. William Russel, arraigned for prison-breaking, plead guilty; case postponed for judgment to the 14th inst. S. E. Davis vs. A. E. Davis, continued to the 14th. Maria Pine vs. Angelo Pine; default taken against defendant. Venice ordered to be issued for twenty-four trial jurors, returnable Monday, the 18th November; and for one hundred, returnable on Tuesday, the 19th.

PAINTING AND DRAWING TAUGHT.—Miss S. E. Morgan, a lady of rare accomplishments, offers, through an advertisement in to-day's Appeal, to teach the young idea how to paint and draw. This offers a fine opportunity to our friends the lads and lasses of Carson to acquire a most useful and entertaining accomplishment. See advertisement.

THE GOVERNOR is blandly taking his time. He replies to those who try to pump him with their witticisms on the vexed question of who is to be our next Supreme Judge, in their own strain. He is a man in his honesty supremely independent. And we believe that his choice will be deliberately made, wise and popular. Let us wait.

SET FOR TRIAL.—The cases of John B. Darling, alias Rattlesnake Dick, Wm. Chamberlain and Edwin Booth, charged with highway robbery, have been set for trial by the District Court at Dayton at ten o'clock Wednesday [to-day]. So says the Enterprise.

MINING MACHINERY.—On the Elliot flume switch yesterday were to be seen a smoke-stack, mill irons, etc., for the Consolidated Virginia Mining Company; also, two car-loads of hoisting works, steam engine apparatus, etc.

J. M. BENTON.

TAKE WARNING.

THE V. & T. R. R. COMPANY ARE
anxious to take due precaution against accidents and loss of life resulting from running of their trains; and they take this method of warning Parents and Guardians against the dangers attending the too common practice of Children playing about their Cars and Locomotives. Those having in charge the business of the Company find it impossible to prevent boys, who frequent the terminal and stopping places of the road, from climbing upon the cars and engines, and they will feel themselves obliged to resort to more decided measures if these annoyances are continued. Recent accidents, which are wholly attributable to the carelessness of persons jumping on and off the cars when in motion, should be warning enough in themselves.
H. M. YERRINGTON, Sup't.
